

Positive Perfection and Cascade Recruitment now aligned with PMG

Stuart and Craig, at Positive Perfection and Cascade Recruitment, are pleased to announce the creation of a strategic alliance with the Pike Management Group. We now have unprecedented access to the most progressive group of producers from across Western Canada, encompassing in excess of 1.5 million acres of farmland.

This opens the doors to innumerable job opportunities for young people, with an agricultural background, to experience agriculture on an international scale and amongst the best operators in our industry.

Pike Management Group is a producer-focused, management services firm dedicated to helping farmers make more accurate, strategic and profitable farm business and grain marketing decisions. PMG feels this alliance will create added value to their clients, the producer, in finding seasonal or full time labour solutions for their operations, whom will bring a diverse background of international experience and ideas to the workplace.

Please take a moment to peruse the PMG website to gain an understanding of the level of producers that Positive Perfection and Cascade Recruitment now have access too.
